~~the estimate~~

4) In X 50 Rs 26-3-4 a/c sanction was accorded to an estimate for Rs 10,000 for the drainage work at Korefet the cost of the scheme was agreed to be met by the govt & the Hd el in equal proportions In order to enable the Hd el to meet its share of the cost, a sum of Rs 5000/- was sanctioned as a loan

5) The above estimate has been revised to Rs 19,000 by the Sanitary dept and the DC recommends that the extra cost of Rs 9,000 be met by the govt and the Hd el in equal proportions and that the Hd el be given a loan of Rs 4,500 as a loan to meet its portion of the cost.

A

6) But the chief Engineer (Irrigation) has sanctioned the revised estimate for Rs 15,657/= In view of this fact the extra cost would be Rs 5,657/- which has to be met by the govt and the Mel on equal proportion

7) The Mel share of the extra cost amounts to Rs 2,828-8-0 which is proposed for as a loan

8) In this connection, it may be stated that the financial position of the Mel, according to the sanctioned budget for 44-45, is unsatisfactory, as seen from the marginally noted figures so far, no amount has been given to the Mel either from the drainage grant or from the ~~water~~ Town Improvement grant provided in the State budget

Rs
Receipts — 29,313
Exp — 28,870
closing balance Rs 443/=

~~Taking this~~

9) In view of the above circumstances sanction may be accorded to the revised estimate for Rs 15,657/- as sanctioned by the Chief Engineer, for drainage works at closefet the entire extra cost of Rs 5,657/- be met by the govt as an outright grant for reasons stated at para 8 supra

(i) Closepet is a Municipal
Its financial condition is very
unsatisfactory. It is not in a position
either to pay into Govt the extra
expenditure involved by the revised
estimate or to repay the loan if any
more is granted.

(ii) Hence the revised estimate
for Rs 15,657 as sanctioned by the
Chief Engr for Irrigation might be approved,
the entire extra expenditure of Rs 5657/-
being met by the Govt as a special
case. Even the Govt would have paid
Rs 10,657 towards the work and the Municipality
Rs 5000 which it has taken by way of
loan on this behalf. Forwarded. (sd)

Agree. There will be no
use of asking this Municipality
contribute Rs 10,000 towards
the entire cost of the revised estimate for
Rs 15657 may be sanctioned
& the Govt share may be Rs 10,000
the entire cost Rs 5657
as a special case

Sir,

Subject - Revised Estimate for the drainage scheme at Closepet Town

---

I have the honour to state that an estimate for Rs.10,000/- was sanctioned in G O No L 9019-22 Ml 97-38-74 dated 26-3-1942 for constructing collecting drains and out-fall sewer works at Closepet Town the cost being met both by Government and Municipality in equal shares A loan of Rs 5000/- was also sanctioned by Government to meet the municipal quota of the above The work was entrusted to the Sanitary Engineering Department for execution

2 The Sanitary Engineer has now sent for sanction a revised estimate amounting to Rs 19,000/- for the above work which was in progress but is incomplete The report explaining the reasons for revision sent by him is enclosed herewith in original for reference It is seen therefrom that the cost of the work so far completed is Rs 2683/- and the remaining cost includes an addition of 30% on the estimated cost to meet any further fluctuation of market rates The Sanitary Engineer however opines that in the event of the work being ordered to be resumed at an early date, a savings of about Rs 3000/- can be anticipated

3 As regards the ways and means of meeting the excess cost of the work the Closepet Town Municipal Council have resolved xat their meeting held on 31-8-1944, that the increased cost viz , Rs 9000/- be borne by the Government and Municipality in equal shares (like the original estimated cost) and that a further loan of Rs 4500/- be sanctioned by Government

to meet the municipal quota. The completion of the scheme is very necessary and the increased cost is inevitable in the circumstances mentioned by the Sanitary Engineer. I therefore request that sanction of Government may be kindly obtained to the revised estimate and also to the proposal of the Municipal council regarding the meeting of the cost of the above work. The Sanitary Engineer may also be requested to resume the work in anticipation of sanction of the revised estimate and credit of further funds so that a major portion of savings anticipated by him (viz.Rs.3000) may be achieved.

The connected records accompany.

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Bangalore District.
